Tealight / Votive-Size

Small & compact, tealight & votive lamps add subtle touches of ambiance where needed. These lamps are ideal where lighting space is at a premium. Or, if desired, multiple lamps can be used to create impressive lighting patterns throughout the room. The lamps typically use [HD8](#) Liquid Tealights™ or [HD12](#) Liquid Votives™.

Mid-Size Lamps

Midsized lamps are larger than tealight and votive lamps, yet are still appropriate in many instances where space is a concern, providing a pleasing accent where needed. Midsized lamps only require 1-2 fuel changes a week. The lamps typically use [HD17](#) or [HD26](#) fuel cells.

Full-Size Lamps

When appropriate table space is available, larger lamps can provide the most drama to the tabletop while establishing points of intimacy throughout the dining room. Larger lamps are very cost effective, often requiring a fuel change only once a week, or possibly less! The lamps typically use [HD36](#) or larger fuel cells.
